

Md Mehedi Hassan

Backend Developer

hassanmehedi685@gmail.com | +8801644559146 | [Github](#) | [LinkedIn](#) | [Portfolio](#) | Dhaka, Bangladesh

Objective

I am a motivated backend developer with hands-on experience in Nest.js, Node.js, REST API development. Skilled in building scalable backend system with strong problem-solving ability and solid programming fundamentals. Eager to leverage backend technologies to develop efficient, user-focused solutions in a collaborative environment.

Projects

- **URL Shortener & Analytics Platform** [Live Link](#) | [Client](#) | [Server](#)
 - Designed and deployed a production-ready URL shortener using Next.js, NestJS, and PostgreSQL on Vercel, with end-to-end ownership of a full-stack application.
 - Secured the app with JWT access/refresh token rotation, httpOnly cookies, bcrypt hashing, and role-based access control demonstrating real-world auth patterns.
 - Developed a click analytics engine tracking geographic metadata (country, city, IP) per URL with optimized database-level indexing for performance.**Tech stack:** Next.js, TypeScript, Nest.js, Prisma ORM, PostgreSQL, JWT, RBAC, Tailwind CSS, Vercel
- **Todo REST API** [Github Link](#)
 - Built a secure REST API with dual-token JWT auth, HttpOnly cookie-based refresh tokens stored in MongoDB with TTL-based auto-expiry and reuse prevention
 - Implemented RBAC via reusable Express middleware with user/admin roles, two-tier rate limiting, and route-level access control to mitigate brute-force attacks
 - Structured in MVC architecture with paginated, filterable, and sortable list endpoints cleanly separating concerns across models, controllers, routes, and middleware**Tech stack:** Node.js, Express.js, MongoDB, JWT, Cookies, REST API, RBAC, MVC Arc · Rate Limiting
- **Pwallet – Personal Finance Web App** [Live Link](#) | [Github Link](#)
 - Built a mobile-first MFS wallet app (Payooo) with PIN-authenticated login, a 6-service dashboard
 - Implemented real-time balance updates with PIN verification and insufficient-balance validation on Add Money and Cash Out flows**Tech stack:** HTML5, CSS3, Tailwind CSS, DaisyUI, Vanilla JavaScript, DOM Manipulation

Skills

- **Programming Languages:** C, C++, JavaScript, TypeScript
- **Backend:** Node.js, Express.js, Nest.js, REST API, Middleware, JWT, RBAC, Rate Limiting
- **Frontend:** HTML, CSS, TailwindCSS, DaisyUI,
- **Database:** MySQL, MongoDB, PostgreSql
- **Tools & Concepts:** Git, GitHub, Linux, CLI, OOP, HTTP, API, Cookie, CORS, Mongoose, Prisma
- **Problem Solving:** [Codeforces](#) (Max Rating - 1154) | [CodeChef](#) | [LeetCode](#) | [UTA \(4th Rank\)](#)
- **Soft Skills:** Problem Solving, Analytical Thinking, Communication, Team Collaboration, Quick Adaptability

Education

- **Daffodil International University**, Dhaka, Bangladesh
 - B.Sc. in Computer Science and Engineering (**CGPA: 3.68** out of 4.00) **2022 - 2026**

Extra-Curricular Activities

- **Trainer & Judge**
 - Mentored 20+ students in data structures and algorithms
 - Worked as a judge in CodeConomics and CodeConomics-2.0 programming contest
